ABOUT ME:

- As a passionate coder in my 4th year at Unity University's computer science department, I'm constantly expanding my skill set by working on personal and collaborative projects.

EDUCATION HISTORY

Academic Pursuits:

- I'm a 4th-year Computer Science student at Unity University,
- I have a business management degree from Adams University..

LANGUAGE

- Amharic (Ethiopian)
- English (USA)

HOBBIES

- Swimming
- Trading
- cooking

TECHNICAL SKILLS:

- **Designing :**
  - Photoshop beginner level
  - Figma: website design and prototyping.
- **Full Stack Development:**
  - Proficient in MERN (MongoDB, Express.js, React, Node.js, Nest.js) and MySQL technologies.
  - Ongoing projects showcase my skills in developing dynamic web applications.
- **Programming Languages:**
  - Actively learning and applying C++, Java, and C#, with JavaScript skills to broaden my skillset.
  - Can write algorithm and code using oop
  - java script , PHP
- **Front-end Development:**
  - Skilled in crafting responsive designs using Tailwind CSS and Bootstrap or just row CSS
- **DevOps and Version Control:**
  - Actively learning Docker for efficient containerization and Git Actions for CI/CD.
  - Actively contribute to collaborative projects using Git.
- **CI/CD and Web Servers:**
  - Engaged in building CI/CD pipelines using Git Actions and GitLab.
  - beginner-level in configuring and managing Nginx.
- **Cloud and Testing:**
  - Exploring cloud computing with beginner-level knowledge of AWS EC2.
  - Utilize Selenium for front-end testing and Mocha for API testing.

EXPERIENCE

- Intern at Infonas IT Solutions Duration: 5 months
- I have three years of coding experience through self-led projects and collaborations.

SUMMERY

- As a dynamic and ambitious individual, I bring a blend of academic knowledge, practical coding experience, and a commitment to ongoing growth. Eager to contribute my skills and enthusiasm to a dynamic development team, I am poised to make a meaningful impact in the world of technology.
